LITR-00050

For Every WALK of LIFE!

ACOR® Orthopaedic, established in 1972, is a family owned, Cleveland, Ohio-based company. ACOR® is a designer and manufacturer of pedorthic products consisting of:

Comfort Footwear: ACOR® now expands our comfort footwear selection with the addition of Drew and Orthofeet Shoes. This expanded line of footwear offers athletic shoes, casual walking shoes, and the popular Mary Jane styles. Widths vary from Narrow to 6E Extra Wide.

New to our catalog this year is the addition of KeepingPace footwear, the first fashionable and durable shoes that fit easily and quickly over a brace/AFO without being oversized for children who require braces to support their legs and feet.

Foot Orthotics: ACOR® offers the industry's largest selection of HCPCS Code A5512 and A5513 foot orthotics because we realize that each person's foot is not the same. We have designed our custom and pre-fabricated orthotics to meet the shock and durability needs of your patients.

Features and Benefits of Acor Shoes

X-Static® Lined Footwear

All ACOR® off-the-shelf footwear is lined with X-Static®, a silver fiber woven directly into the lining. Additionally, X-Static® can be added to any of our custom footwear and orthotics. Fabrics engineered with X-Static® inhibit and reduce the growth of micro-organisms in the fabric. X-Static® also resists odor and defends against blisters and hot spots. You will find that X-Static® is also found in all of our socks and in several of our custom and pre-fabricated orthotics.

Double Depth Footwear

ACOR®'s footwear is designed to provide "Double Depth" to accommodate a person's foot and to allow for the addition of customized insoles.

Tandem Closure System™

ACOR® offers a unique style of closure with three styles of shoes. Our patented Tandem Closure System™ allows for a traditional lace, Velcro®-brand style, and one-handed pull closure all within one shoe. This helps the patient secure their shoes, even if they suffer from a disability that would prevent them from using a standard lace closure - without losing any of the aesthetic value!

For more information on ACOR's Tandem Closure System go to:

<http://www.acor.com/Downloads/TandemClosureSystem.pdf>

Innovative, Pedorthic Solutions

THE ANATOMY OF ACOR FOOTWEAR

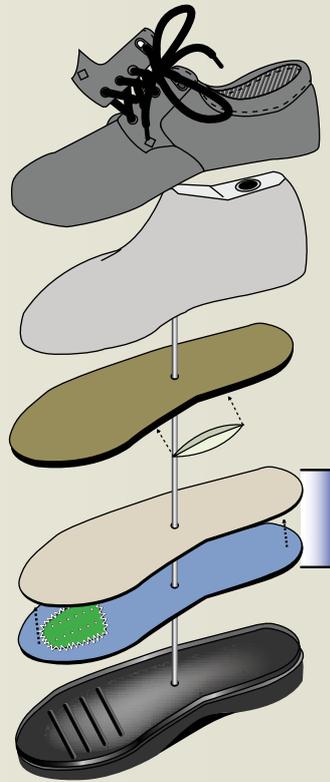

Comfort: Genuine leather uppers and full interior X-Static® shoe lining.

Fit: Engineered for greater freedom, depth and heel fit.

Cushion: Two removable inlays which automatically mold to the foot with wear.

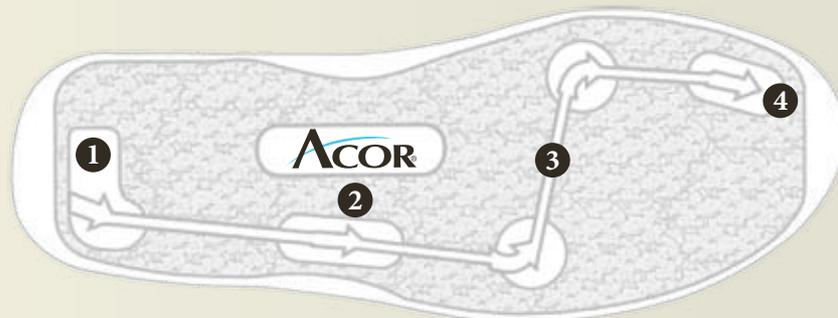

Flexibility: Scored insole with micro-flex zones allow maximum movement.

Support: Line-of-progression outsole. Cushions and supports the foot.

LINE-OF-PROGRESSION TECHNOLOGY

1. Beveled-off heel smoothes transition from heel strike to foot flat.
2. Wide, sturdy base of support to prevent lateral roll-over at foot flat.
3. For easy, comfortable bending, ACOR®'s unique flex construction incorporates our grooved outsole and Texon® Ultra Insole.
4. A mildly tapered "roller sole" for smooth, energy conserving propulsion.

ACOR is proud to announce the addition of

ORTHOFEET® to our growing family of fine footwear products!

Orthofeet footwear offers unique depth shoes that combine unsurpassed comfort with attractive styling. The shoes are designed by biomechanical engineers who have been developing innovative foot-care products for over 20 years. Their complete dedication to comfort, performance and styling has resulted in a footwear line that offers an extraordinary wearing experience.

All Orthofeet shoes feature advanced athletic footwear technology, making every Orthofeet shoe feel like the best sneaker, offering the ultimate footwear for people who are looking for extra comfort and protection. Orthofeet shoes have proven to work wonders for Plantar Fasciitis and diabetic feet and are reviewed by Medicare to meet the requirements for the Diabetic Shoe Bill.

All Orthofeet styles, including those not pictured, are available through ACOR.

Introduction to **DREW**

DREW[®]

Drew Shoe has set the standard for beautifully styled footwear that protects and pampers feet in need of special care. With a 135-year history, Drew has spent more time researching and refining comfort footwear than anyone else in the industry. From athletic styling to more traditional comfort shoes with Velcro[®] brand and tie closures, Drew's footwear collection offers the industry's most proactive health benefits. Each pair is made with removable insoles, the finest leathers and a generous toe box. Most styles offer Drew's Plus Fitting System[®] with two removable footbeds for a customized fit.

Drew has refined and mastered the science of therapeutic comfort footwear. The entire Drew Collection is an inventive combination of function and style, working to keep the feet healthy—and looking great. Drew selects the ultimate comfort materials to pamper and protect even the most tired, aching feet.

Although the styles in this catalog are HCPCS Code A5500, the full line of Drew[®] is available from Acor[®], including those not pictured.

Hush Puppies - An American Legend

In 1958, Hush Puppies created the world's first casual shoe, signaling the beginning of today's relaxed style.

By utilizing supple suede in combination with lightweight crepe soles, Hush Puppies created a soft, breathable and very comfortable shoe - an innovation that would ultimately change the kind of shoes we wear. In an era when footwear choices were limited, Hush Puppies shoes provided the world with a new alternative: a modern shoe embraced for its authentic style and casual flair.

Relaxed and classic in design, Hush Puppies shoes have always defined what it means to be modern and casual. Today, Hush Puppies continues to innovate, bringing technical excellence and genuine style to men, women, and children in over 120 countries.

A revolutionary idea - born more than fifty years ago - continues to inspire Hush Puppies today.

Although the styles in this catalog are HCPCS Code A5500, the full line of Hush Puppies® is available from Acor, including those not pictured.

BOSTON, Oct. 8, 2004-KeepingPace, Inc., founded by Lori Watson, the parent of a special needs child, has developed the first fashionable and durable shoe that fits easily and quickly over a brace/afo, without being oversized, for children who require braces to support their legs and feet.

"I was amazed that the shoes available would always be out of date and never took into account the latest fashions for these children," said Watson. "We know how difficult it is to find special shoes that are contemporary, need little if any adjustment and are easily available and affordable."

In developing the shoe, Watson brought together a team of other parents of special needs children, top orthotists, designers and a specialty footwear manufacturer, who worked for eighteen months to create an athletic shoe, the first of many styles, that met the team's vision.

ACOR® Spring Street™

HCPCS Code A5500

Double Depth

- X-Static® lining
- Ultra-light weight
- Flexible construction
- Lace closure

- 01181 Black Leather
- 05181 Bone Leather
- 04182 Brown Nubuck

 05203 Bone

The Comfort Street™ is made from a stretchable material that conforms to your feet. It is perfect for travel or accommodating swollen feet. In addition to its' incredible flexibility, the Comfort Street™ is also machine washable!

Do Not Use Bleach.

"My mom and dad love your shoes. They each have a pair of Comfort Streets that I got them for Christmas. Dad calls them 'Outdoor Slippers' and mom likes them because you can throw them in the wash. These shoes are A+++++"
-Judy C. (KY)

"Thank you for helping my mom's feet. She's been in a nursing home for the past 8 months and these shoes have protected her feet with her diabetes problems. Her doctor even thinks her feet are healing faster! There is still magic in the world." -Tina R. (CA)

New Retail Packaging!

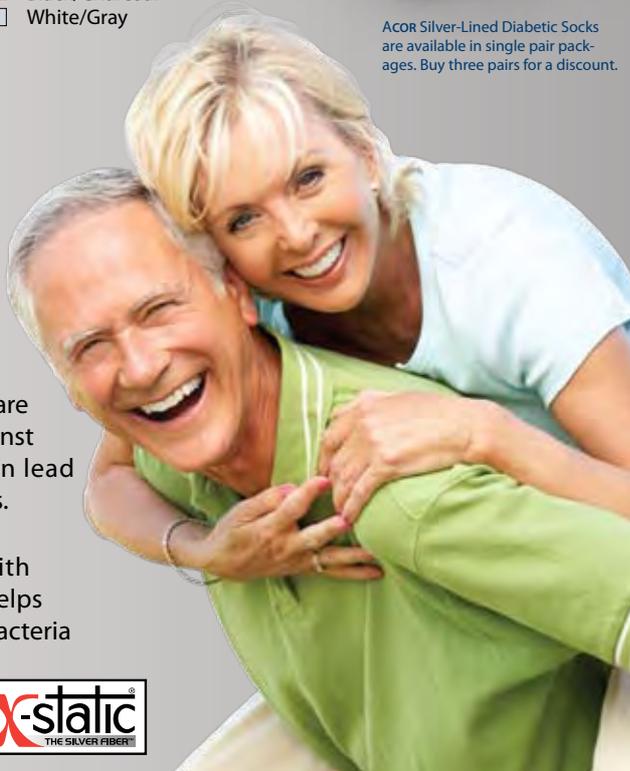

ACOR Silver-Lined Diabetic Socks are available in single pair packages. Buy three pairs for a discount.

Why not wear a sock that pro-actively kills bacteria and fungi on your sock?

Whether it is a need for mobility, protection, or comfort, people with diabetes have special footwear needs. The right socks are your first layer of protection against blisters and ulcerations that can lead to serious problems for diabetics.

All of ACOR's socks are lined with X-Static®, the silver lining that helps protect your feet against odor, bacteria and blisters.

- Machine washable
- Do not use chlorine bleach

ACOR Sole Defense® Premium Seamless Silver Socks

Whether it is a need for mobility, protection, or comfort, people with diabetes have special footwear needs. The right socks are your first layer of protection against blisters and ulcerations that can lead to serious problems for diabetics.

Sole Defense® premium seamless, silver-lined socks are our highest-quality silver sock. Along with all of the unique benefits offered with our Sole Defense®, silver-lined products, these socks offer a ventilation system that keeps feet cool and dry and contain 150% more silver than our other socks.

The toe is seamless and irritation-free, which is excellent for those with sensitive feet. The sole absorbs shock and fits comfortably into casual or active shoes. A rich fiber blend of X-Static® silver, polyester, Sole Defense® socks keep your feet very comfortable while providing 100% protection for your feet. The X-Static® Silver Fibers are maintained throughout the entire sock, not just the plantar surface!

Try ACOR Sole Defense® premium silver socks today!

Machine Wash and Dry, Gentle Cycle, No Bleach

Silver Lined Socks

Healthy Soles Diabetic Socks

These unique socks are non-binding with cushioned foot and minimized toe seams for walking comfort. Made with a special, non-restrictive top as recommended by physicians.

Available in three sizes:

Small (Women 4-9/Men 3-8)

Medium (Women 10-13/Men 9-12)

Large (Women 13+/Men 12+)

Styles: Crew only

Available in four colors: White, black, brown and beige

Machine Wash and Dry, Gentle Cycle, No Bleach

ORTHOFEET *bioSoft*™ Diabetic Socks

Bamboo fibers have natural properties that are perfect for sensitive skin. Their anti-bacterial properties do not allow the spread of bacteria on the skin and work to eliminate odor. Their soft yarn construction minimizes friction that can cause irritation and blisters.

Non-Constricting Design

Very loose knit construction with super stretch offers maximum blood flow, enhancing fit and comfort

Smooth Toe Seam

Unique linking process along with an inverse design provides a virtually seam-free sock interior, offering maximum protection against blisters and irritations

Anti-Bacterial/Anti-Odor

Bamboo anti-bacterial natural properties inhibit bacteria and control foot odor

Anti-Blister

Soft bamboo fibers along with a unique brushing process offer an extremely soft sock interior, minimizing friction and providing maximum comfort and protection

DryPlex™ moisture wicking technology keeps feet always dry and comfortable, providing a healthier environment for sensitive diabetic feet.

Padded Sole Diabetic Socks

Diabetic Socks

ORTHOFEET *bioSoft™* Dress and Fully Padded Diabetic Socks

Dress/Casual Diabetic Socks

Available in four sizes:

Small (Women 4-7)

Medium (Women 7.5-10/Men 6-8.5)

Large (Women 10.5-13/Men 9-11.5)

Extra Large (Men 12-15)

- Superior moisture wicking
- Non-constricting design
- Smooth toe seam - Inverse design
- Odor control
- Anti-bacterial
- Anti-blister

Children's Orthopedic Shoes

KeepingPace Children's Orthopedic Footwear

See page 103 for KidFit™ children's orthotics

ACOR® orthotics fall into distinct categories made to reflect the activities and lifestyles of your patients. Each of our orthotics are unique, but have one attribute in common - they are designed to help make people's feet more comfortable and to help them enjoy a better quality of life.

Our **custom orthotics** are made from molds of your patient's feet and hand-crafted at our facility to ensure an exacting fit.

Walking orthotics work like shock absorbers, removing pressure and stress from painful areas in the foot and ankle. They help restore balance and alleviate pain.

Therapeutic orthotics are designed for people who have diabetes, arthritis, or other conditions that result in sensitive feet.

Active orthotics are made of more rigid, durable materials designed to restore natural foot function and lessen stress in the feet, ankles, knees and lower back.

KidFits™ pediatric arch supports offer gentle corrective control by supporting the young foot through curvature and void-fill.

Our new **M.Or.F.S.™** (Modular Orthotic Fitting System) are 2-part finished orthotics that can be mixed, matched or modified.

Custom Orthotics

3 Base Layers + 3 top Layer + Modifications

Equals Hundreds of Choices

Which M.Or.F.S.™ Meets Your Needs?

A SIMPLE FOOT ORTHOTIC

A DUAL-STAGE FOOT ORTHOTIC

Step One:

- Decide if your shoe can accept a top, a base, or both layers.
 - Use both layers as the ultimate in cushioning and support in your therapeutic, walking and active shoes.
- OR**
- The top layer can be used by itself for full foot cushioned comfort.
- OR**
- The base can be used individually in footwear such as loafers or dress shoes that have less room inside for support.

Extra Depth Shoes: M.Or.F.S.™ work well as a combination - with or without modifications - in your extra depth footwear for maximum comfort and protection.

Walking Shoes: M.Or.F.S.™ will fit comfortably into most walking shoes, offering a balance between cushion and support.

Athletic Shoes: M.Or.F.S.™ slide perfectly into your athletic shoes and offer superior protection and support from your heel to toe.

M.Or.F.S.™ (Modular Orthotic Fitting System)

... MODIFY THEM

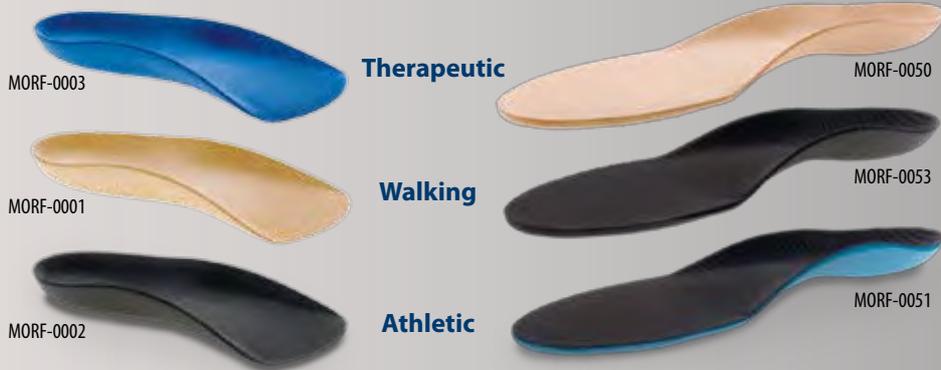

Step Two: Order any modifications needed and let Acor's custom footwear department do the work or simply modify in your own facility.

- Metatarsal Bars
 - Metatarsal Pads
 - Metatarsal Reliefs
- Heel Depressions
 - Wedging
 - Posting
- Saddle Accommodations
 - Morton's Extension
 - Arch Fills

Step Three: Your order ships the **NEXT BUSINESS DAY.**

Step Four: Fit your patient with a modified orthotic within days of their initial visit.

KidFits™ Orthotics

KidFits™ pediatric arch supports offer gentle corrective control that contain no rigid plastics. They are made of EVA laminates, which gain their structural support through curvature and void-space fill. Kidfits™ are heat moldable and grindable. Adjust them easily to suit the needs of your little patients.

KidFits™ 6P8

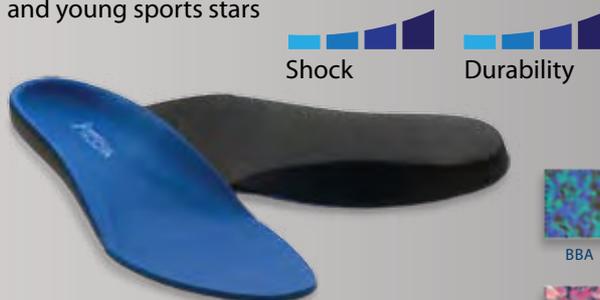

Materials: Microcel Puff® + PORON Medical® Urethane + Multicork™
Activity Level: Fully-active children

The 6P8 is available in Pink/Purple/White (PPW) or Blue Storm top covers. Other colors available on request. Minimums may apply to alternate colors.

KidFits™ 6E

Materials: Microcel Puff® + EFM™
Activity Level: Aggressive activity and young sports stars

The 6E is available in blue (as shown) and also your choice of Blue/Black/Aqua (BBA) or Pink/Purple/White (PPW) top covers. Minimums may apply to alternate colors.

Accessories

MEASURING DEVICES

The Ritz foot measuring stick quickly measures the width as well as length of shoes required. A glance at the front gives you the length, a glance at the back gives you the width. # ACCS-00170

The Brannock Device® measures accurately, is made of quality construction and is simple to use. It incorporates three functional measurements of the foot: heel-to-toe, arch and width. # ACCS-00252

ANKLE/FOOT STABILIZERS

Designed to assist in pain relief from Diabetes, Arthritis and Raynaud's Disease, this stabilizer gently warms the ankle and foot using natural heat therapy.

If required, the Ankle/Foot Gauntlet comes with side stabilizers which can be added to provide extra support. # 383

SHOE FITTING KIT

This fitting kit supplies the salesman with four (4) Acor-brand shoes, a Ritz foot measuring stick and one (1) pair of our QuikFit® Lite orthotics. # FITTER KIT

ACOR Orthopaedic offers a comprehensive in-store merchandising and marketing solution designed to be the hub of the healthy living marketplace for your office, pharmacy or waiting room. Educating consumers with diabetic health products, ACOR Orthopaedic influences consumer behavior by delivering specific, fully integrated foot care products to your patient.

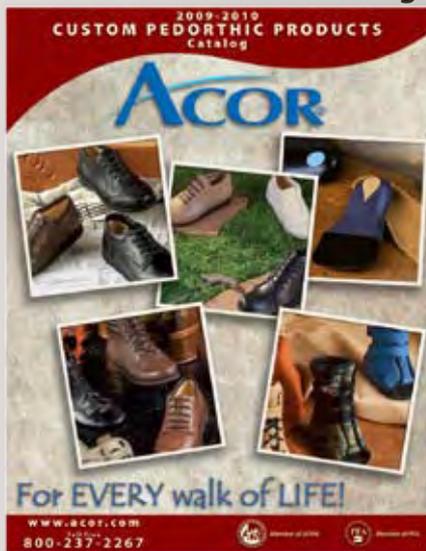

With an engaging new interface that features custom retailer branding, ACOR Orthopaedic drives the sale of our products to deliver a targeted message right to the end user.

Contact ACOR at: **800-237-2267 (option 2)** for more details on our merchandising solutions.

ACOR's commitment to clinical education is one of our greatest priorities. Comprised of accomplished instructors, with over 100 years of combined pedorthic experience, we have conducted seminars throughout North America and now offer courses online!

Participants learn to feel comfortable with basic foot anatomy, professional level shoe fitting, the special footwear needs of diabetic patients, conditions affecting the foot, direct heat molding and modifying of pre-fabricated orthoses.

Registration is limited and is on a first come, first served basis. Classes are accredited for ABC, BCP, and BOC.

Please review our web site at:
www.acor.com/education.htm
for more details.

If you have any questions about attending a seminar or would like to host your own class, contact us via email: education@acor.com
